To whom it may concern

Letter of reference: Via Africa

We hosted an international meeting in November 2019 in Pretoria, South Africa, and used the services of Via Africa to organize a post conference tour of the Panorama route in the Lowveld area.

The service provided by Via Africa was exceptional! This included preparing the budget and costing of the tour; registering the delegates and co-ordinating dietary requirements; booking and arranging the accommodation, transport, points of interest and meals for the duration of the trip; and communication with the delegates regarding the itineraries and other information.

Via Africa went beyond what was expected to ensure that the delegates had an enjoyable and memorable experience, using their knowledge of the area to add their own unique touches to the trip. We received very positive feedback from our international and South African delegates, for whom the post conference tour was certainly a highlight of their visit.

Yours sincerely,

Brett Hurley
Professor: Department of Zoology and Entomology
Forestry and Agricultural Biotechnology Institute, University of Pretoria, South Africa
