Dear WWF Organising Committee

Via Africa Reference Letter

I am writing on behalf of the South African Geophysical Association (SAGA) to extend our heartfelt endorsement for Via Africa, our trusted conference organizing partner for the past ten years. A decade of collaboration speaks volumes, but to encapsulate our experience with Via Africa: they have consistently embodied professionalism, dedication, and impeccable service quality.

The SAGA-AEM 2013 conference held at Skukuza remains particularly vivid in our memories, not only because of its professional significance but also due to the seamless manner in which it was executed. From inception to fruition, Via Africa ensured that every detail, no matter how minute, was addressed with finesse and precision. They effortlessly maneuvered through the multifaceted challenges posed by the intricate nature of such a large-scale event.

It is noteworthy to emphasize the consistency in high-quality service we have received from Via Africa over the decade. In an industry where adaptability and rapid response are paramount, Via Africa has consistently proven themselves as stalwarts, ensuring that our events, irrespective of size or location, are executed to the highest standards.

Marcia and Kathy have been the driving forces behind this success. Their passion, expertise, and commitment have made our collaborative journey not just successful but also highly enjoyable. They have surpassed mere service delivery, offering innovative solutions, creative ideas, and a genuine commitment to making each event memorable for all attendees.

Given our longstanding partnership and numerous shared successes, I have every confidence that Via Africa will rise to the occasion and surpass expectations for any event they undertake. I wholeheartedly recommend them for any conference or event organization, and I am confident that

they will bring the same zeal, passion, and excellence that we have come to expect and cherish over the last ten years.

Should you require any further information or clarification, please do not hesitate to contact us directly.

Yours faithfully

A handwritten signature in blue ink, appearing to read 'Oleg Brovko', with a stylized flourish extending to the right.
