25 November 2015

To whom it may concern:

I hereby state that Going Africa Conferencing played a major role in making the 7th International Macadamia Symposium (IMS) that was held in Skukuza on 11-13 August 2015 a success. All the feedback received indicated that this was the best IMS thus far. More than 400 delegates attended the symposium from 20 countries.

The IMS consisted of three main events, namely the pre-symposium tour which was held over a three day period in Mpumalanga, the symposium itself which ended with an extraordinary gala dinner and a post-symposium tour.

The Going Africa Conferencing team engaged with the organising committee on a regular basis as was needed. They are professional and attended to all the details that are necessary to make a big event like this run smoothly and successful.

We as Subtrop and SAMAC would highly recommend Going Africa Conferencing. Should there be a similar event in the future we will without doubt make use of them again.

For any enquiries, feel free to contact me.
